

Earn your MCSE Security 2003 Certification in 14 days!

New Horizons is offering a 14 day accelerated training program to enable you to earn your MCSE Security Certification.

Location:
New Horizons – Livonia
14115 Farmington Rd
Livonia, MI 48154

Dates:
March 31st – April 13th
(8:00am – 8:00pm)

Cost: \$7,500

The MCSE: Security certification is for IT professionals in a systems engineer job role who specialize in designing, planning, and implementing security on the Microsoft platform and as part of a secure computing environment.

Prerequisites:

An MCSE: Security 2003 candidate should have at least two years of experience implementing and administering desktop and network operating systems, and designing a network infrastructure in the typically complex computing environment of medium to large organizations. The candidate should also have experience in designing and implementing security for a network infrastructure. In addition, the candidate should possess a broad foundational knowledge of general security concepts, including communications security, infrastructure security, cryptography, and operational and organizational security, or else have specific skills related to the implementation of ISA Server 2000/2004 in an enterprise environment.

Students will receive:

Learning Solutions

- All 8 MCSE: Security 2003 and MCSA 2003 tests.
- Microsoft official courseware designed for classroom training with hands-on labs.
- Official copies of Transcenders, the world's best test-prep software, for all eight tests!
- Up to 9 Microsoft test vouchers available for use during the bootcamp.
 - 70-290 Managing and Maintaining a Microsoft Windows Server 2003 Environment
 - 70-291 Implementing, Managing, and Maintaining a 2003 Network Infrastructure
 - 70-293 Planning and Maintaining a 2003 Network Infrastructure
 - 70-294 Planning, Implementing, and Maintaining a 2003 Active Directory Infrastructure
 - 70-270 Installing, Configuring, and Administering XP Professional
 - 70-227 Internet Security and Acceleration (ISA) Server 2000, Enterprise Edition
 - 70-298 Designing Security for a Microsoft Windows Server 2003 Network
 - 70-299 Implementing and Administering Security in a Microsoft Windows Server 2003 Network
- 168 hours of hands-on instructor led training including 12 hours of instruction and lab time from a Microsoft Certified Trainer (Including self-study and exam time).
- Fresh catered meals - breakfast, lunches, and dinners.
- Dedicated testing stations for students.

To register:

To register, you must first qualify for the bootcamp through a 25 question, 50-minute online skills assessment test. To take the test, please **Contact your Account Executive**.

Iron-clad guarantee

Our guarantee to you: You will obtain your dual certification. If you finish our bootcamp without your dual certification, you can attend a future bootcamp. **Contact your Account Executive** for details.

To get the full guarantee, ALL students must pass the online skills assessment test. These tests will be evaluated by our bootcamp instructors, and your Account Executive will give you details regarding your guarantee status, depending on your test score.
